

# Connecticut Technology Transfer Center

## Training and Events

### Dates & Locations

**April 15, 2015**

Torrington, CT

**April 16, 2015**

Willington, CT

Sessions are 8:30 am -12:30 pm  
 (Registration begins at 8:00 am)

### Learning Objectives

Upon completion of this class, participants will be able to:

- Understand the function and purpose of OSHA and workers' and employers' rights and responsibilities;
- Understand why workers on foot are vulnerable to runover and backover incidents;
- Explain the elements of an Internal Traffic Control Plan and the hazards ITCPs are designed to mitigate;
- Discuss the roles and responsibilities of all members of the construction team with regard to the successful deployment of an ITCP;
- Develop and implement an ITCP.

## Preventing Runovers and Backovers in the Work Zone

*A Partnership with the American Road & Transportation Builders Association (ARTBA)*

### *A CT ROAD MASTER PROGRAM ELECTIVE WORKSHOP*

This four-hour comprehensive training program is designed to minimize runover and backover incidents' in roadway work zones. Course materials cover most information needed to develop and implement Internal Traffic Control Plans (ITCPs) on roadway construction sites as the primary means to reduce runovers and backovers.

### Who Should Attend

This program is designed for those responsible for planning and working in work zones. Crew Leaders, Highway Superintendents and Public Works Directors are encouraged to attend.

### Course Instructor

Omar Lopez is an accredited instructor for OSHA 10-hour and 30-hour programs, Flagging, CPR, First Aid and others.

Mr. Lopez has been heavily engaged in Spanish language translation and interpretation for nearly a decade. For the past seven years, he has focused on safety and health training, with special attention to Hispanic and disadvantaged workers.
