Roadside Maintenance
A CT Road Scholar Program Elective Workshop

Roadway maintenance does not stop at the edge of the pavement. How the roadside is maintained can impact the quality of the road itself as well as the safety of those who use it. This course has been developed for supervisors who maintain urban and rural roadsides. It focuses on the importance and complexities of maintenance operations including vegetation control, safety concerns, drainage and trees. Policy and procedure recommendations for safe roadside maintenance will also be discussed.

Who Should Attend

This course is designed for those who are responsible for maintaining urban and rural roadsides.

Public Works Directors, Highway Superintendents, Foremen and Crew Leaders are encouraged to attend.

Course Instructor

Paul Brown, is the President of RoadTech, Inc., a consulting company specializing in road management and pavement maintenance issues. Paul has been teaching road building and maintenance classes for LTAP centers around the country for several years and has been in the construction industry since 1979.

“Paul always puts on a good presentation, very knowledgeable and engaging.”

- Road Scholar Program participant
Registration

- Please visit [www.t2center.uconn.edu](http://www.t2center.uconn.edu) to register for this class online.

- **Registration contact:** Please direct any questions to Shelly Desjardin at [shelly.desjardin@uconn.edu](mailto:shelly.desjardin@uconn.edu) or call (860) 486-9373.

- **Cost (includes lunch and course materials)**
  - $100—State and Municipal participants
  - $200—Private-sector participants

- If you require an accommodation to participate in this workshop, please contact Shelly Desjardin at [shelly.desjardin@uconn.edu](mailto:shelly.desjardin@uconn.edu) or call (860) 486-9373, at the time of registration.

- Please advise if you have dietary restrictions.

- Photographs may be taken for promotional and training purposes. Please notify us during registration if you do not wish to be photographed.
