Intended Audience: This workshop is designed for municipal personnel who serve in the capacity of their municipality’s legal traffic authority and others who have an interest or involvement in municipal traffic safety and traffic control.

Objectives—At this workshop participants will receive information to:

♦ Understand basic concepts, principles and techniques for evaluating traffic issues
♦ Develop reasonable alternative solutions for addressing local traffic problems
♦ Practice completing exercises to perform common municipal engineering and traffic studies using real data
♦ Be able to communicate more effectively with traffic safety experts

The Instructor: Mark Hood, P.E. is a Senior Technology Transfer Specialist and Traffic Safety Engineer with Pennoni Consulting Engineers and the Pennsylvania LTAP Center. He has over 16 years of experience in Transportation Engineering and has been providing training and technical assistance on transportation safety and traffic engineering-related subjects to audiences around the country for the past ten (10) years.
