Mail to: Technology Transfer Center
270 Middle Turnpike, Unit 5202
Storrs, CT 06269-5202

Fax to: (860) 486-5718, or register on-line at
www.t2center.uconn.edu/registration.php

If mailing registration with payment, please be sure to also fax your registration to secure a space. Please direct any questions to Shelly Desjardin at (860) 486-9373.

The Connecticut Transportation Institute's Technology Transfer Center, established at the University of Connecticut's School of Engineering in 1983, provides training, technical assistance and informational materials to Connecticut's local governments on the planning, design, construction, maintenance, operation and management of roads, bridges and public transit.

The Technology Transfer Center is a cooperative effort of the Connecticut Department of Transportation, the Federal Highway Administration's Local Technical Assistance Program (LTAP) and the University of Connecticut.

Pavement Preservation Management: Making it Happen in Your Agency

A Road Scholar Elective Workshop

**September 29, 2009
Manchester, CT (larger towns)**

**September 30, 2009
Glastonbury, CT (smaller towns)**

Both Sessions
8:30 a.m. — 3:30 p.m.
(Lunch will be provided)

Course Description:

Pavement Preservation Management is a key element in keeping your road network healthy in today's economic climate. This course will provide an overview of various pavement preservation treatments and discuss how to integrate these cost-effective practices into your agency's asset management program in order to extend pavement life and improve safety and motorist satisfaction while saving dollars.

Who Should Attend:

This program is designed for all municipal highway officials responsible for maintaining local road networks and making decisions on pavement preservation strategies.

Directors of Public Works, Town Engineers, Highway Superintendents and Foremen are encouraged to attend.

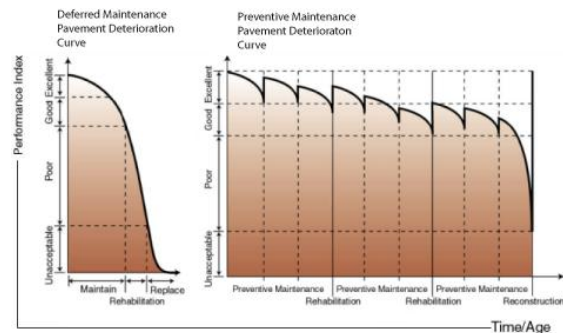

Instructors:

James Mahoney is the Program Director of the Connecticut Advanced Pavement Laboratory (CAP Lab) and the Executive Director of the Connecticut Transportation Institute at the University of Connecticut.

Jim has over 13 years of experience in pavement materials research and design. He received his Master's degree from the University of Connecticut in 1995 and has been with the CAP Lab since that time.

Edgardo Block, P.E. from the Pavement Management Unit of the Connecticut Department of Transportation. Edgardo has 20 years of experience in pavement management and design.

Deferred vs. Preventative Maintenance

We are holding two separate sessions based on the size of your municipality.

September 29, 2009
Manchester, CT

This session focuses on issues facing larger towns and cities

September 30, 2009
Glastonbury, CT

This session focuses on issues facing small towns

While each session is aimed at a particular type of municipality, both will attempt to answer the following questions:

- ◆ What treatments to use and when
- ◆ How to evaluate your road network and the changes you are making
- ◆ How to move away from the "Worst-First" pavement management philosophy
- ◆ How to get community and political support for these changes

Both sessions will also incorporate local perspectives and provide case studies of those agencies who are making it work in their communities.

Registration Fees

The registration fee for State and Municipal participants is **\$75.00**; the registration fee for private sector participants is **\$150.00**. The registration fee includes refreshments, lunch and workshop handouts. Registration fees are due prior to the start of the workshop.

Participants from the Connecticut Department of Transportation must provide the ConnDOT workshop voucher number with the registration form and bring the original voucher to the workshop.

Refund Policy

The registration fee is refundable if notice of cancellation is received 48 hours prior to the start of the program. Registrants who are unable to attend and do not cancel in advance are subject to the registration fee.

Substitutions may be made at any time. Please notify us of changes.

Registration

Registration is closed one week prior to the day of the workshop. Please mail registration to address noted on the form or fax to (860) 486-5718.

You will receive a confirmation packet by mail containing travel directions and parking information prior to the training date.

Enrollment is Limited

Registrations will be accepted on a first-come first-served basis. Please register early for this workshop.
