Upcoming Training Opportunity offered by the T2 Center’s Connecticut Safety Academy:

**Sign Retroreflectometer Training**

*July 15, 2014 - Colchester, CT*  
*July 30, 2014 - Burlington, CT*  
*Sessions will be held from 8:30 AM to 10:30 AM*

**Learning Objectives:** At the end of this session, participants will be able to:

1. Understand traffic sign retroreflectivity as set forth in the MUTCD
2. Set up and configure the retroreflectometer
3. Understand the process of taking sign measurements using the retroreflectometer
4. Retrieve data from the retroreflectometer.
5. Access the CT T2Center Loan Program to borrow the retroreflectometer and other useful equipment
6. Understand the services offered through the Safety Circuit Rider Program

**Who Should Attend:** This program is designed for Public Works, Engineering and Police Department personnel responsible for sign installation and maintenance.
Session Speakers:

- Anthony A. Lorenzetti, P.E. - Safety Circuit Rider - University of Connecticut Technology Transfer Center
- Daniel L. Stanton, P.E. - Assistant Town Engineer – Town of New Milford

Please Note: No registration fees are charged for Safety Academy Trainings
