This course satisfies the ATSSA Flagger Certification Curriculum. Topics covered will be flagger visibility, personal protective equipment, flagger equipment, selection of traffic control station, parts of signing pattern, and general work zone safety. Satisfactory completion of this course certifies participants for four (4) years and places them on ATSSA's national registry.

### **Agenda:**

7:45 - 8:00 am - Registration and Introduction

8:00 - 12:30 am - Classroom Session, Practical Skills Evaluation, Quiz

**Instructor:** Scott Zinke is currently a Research Engineer with the Connecticut Advanced Pavement Laboratory at the Connecticut Transportation Institute. Scott has been involved with the Connecticut Transportation Institute since 2001 and received his Bachelor of Science degree in Civil Engineering from the University of Connecticut in 2004. Scott currently holds four certifications by the American Traffic Safety Services Association (ATSSA) in Flagger, Traffic Control Technician, Traffic Control Supervisor and Flagger Instructor. Scott also received training in the area of Road Safety Audits by the Federal Highway Administration and is certified to teach the Federal Highway Administration endorsed "Road Safety Fundamentals" course.
