Pavement preservation is a cost-effective set of practices that extend pavement life and improve safety and motorist satisfaction while saving dollars.

Come join James Mahoney, the Director of the Connecticut Advanced Pavement Laboratory and your colleagues from other cities and towns in Connecticut to discuss your pavement preservation strategies and experiences. Some of the topics we will cover will include:

- **Developing a strategy to “Keep Good Roads Good”**
- **Preservation techniques**
- **Optimal timing for application**
- **Challenges/success stories**

Each participant will submit a topic they would like to discuss and will be expected to actively participate in the discussion.

Pavement Preservation is quite the hot topic in highway agencies. This should be a very interesting and educational discussion.
