Infrastructure Asset Management

A CT ROAD SCHOLAR PROGRAM REQUIRED WORKSHOP

This workshop is designed to provide an overview of the complexity of managing the many assets of a municipal government. Topics include the importance of developing an infrastructure asset management program in your agency, specific asset management areas such as pavements, signs and drainage and how an asset management program can be a tool to help in budget planning.

Who Should Attend

Public Works Directors, Highway Superintendents, Foreman and others who are responsible for managing public works assets are encouraged to attend.

Course Instructor

Paul Brown is President of RoadTech, Inc., a consulting company specializing in road management and pavement maintenance issues. Paul has been teaching road building and maintenance classes for LTAP centers around the country for several years and has been in the construction industry since 1979.
