Work Zone Safety for Maintenance Operations on Local Roads

A CT ROAD MASTER PROGRAM REQUIRED WORKSHOP

Dates & Locations

March 17, 2015
Bloomfield, CT

March 18, 2015
Bethany, CT

March 19, 2015
Colchester, CT

Sessions are 8:30 am - 3:30 pm
(Registration begins at 8:00 am)

Learning Objectives

In this workshop participants will learn:

- How to manage work zone traffic;
- How to set-up and maintain work zones;
- How to install, maintain and monitor traffic control devices;
- How to identify and train the right people for flagging in the work zone.

Who Should Attend

This program is designed for any state or local personnel who are involved in street and utility construction and maintenance on local roads. Road Foremen, Crew Leaders, Highway Superintendents and Directors of Public Works are encouraged to attend.

Course Instructor

Adam R. Drummond is the President of National Safety Services, LLC. He is responsible for the development and delivery of National Safety Services programs nationally, including environmental and health and safety training and has over 20 years experience in the safety training, consulting and products industry. Adam has designed more than 75 individual training programs for safety and environmental applications.
